SUMMARY

Computer Science Engineering graduate (2026) with hands-on experience in Java, Spring Boot, REST APIs, Spring AI, and MySQL. Strong foundation in backend development, system design, object-oriented programming, and problem-solving through practical projects. Seeking an entry-level Java/Spring Boot Developer opportunity to build reliable and AI-powered software solutions.

TECHNICAL SKILLS

Languages: C, Java

Backend: Spring Boot, Spring Security, Spring AI, REST APIs, Hibernate, Spring Data JPA, JWT Authentication

Frontend: React, HTML, CSS, Tailwind CSS, Bootstrap

Databases: MySQL, MongoDB

AI Integrations: Google Gemini, Ollama (Local LLM)

System Design: HLD, LLD, REST API Design, Monolithic Architecture, Layered Architecture, SOLID Principles, Design Patterns

Tools & DevOps: Git, GitHub, Maven, Postman, Docker, Render, Vercel, Claude Code

PROJECTS

AI-Powered Help Desk Chatbot - *Spring Boot, Spring AI, React, MySQL* https://github.com/Rahulsah33/Chatbot_HelpDesk

- Built a full-stack AI help desk assistant integrating Spring AI with Google Gemini and Ollama for conversational IT support and troubleshooting.
- Implemented persistent conversation memory with unique session IDs, enabling context-aware multi-turn chat interactions.
- Developed a responsive React (Vite) frontend with real-time chat UI, connected to a Spring Boot REST backend and MySQL for data persistence.

AI Travel Agent - *Spring Boot, Spring AI, Gemini/Ollama* https://github.com/Rahulsah33/Ai_Travel_Agent

- Built an AI-powered travel assistant using Spring Boot and Spring AI to help users search and manage flights, buses, hotels, and travel information.
- Integrated AI tool calling to dynamically invoke travel-related services based on user requests.

Real-Time Chat Application - *Spring Boot, WebSocket* <https://github.com/Rahulsah33/Real-Time-Chat-Application>

- Built a real-time messaging application enabling instant two-way communication between users.
- Implemented WebSocket-based architecture for low-latency, bidirectional data exchange.

Management System - *Java Swing, MySQL, JDBC* <https://github.com/Rahulsah33/Hotel-Management-system>

- Developed role-based hotel management software covering room booking, billing, and staff management.
- Performed end-to-end CRUD operations using Java Swing and JDBC.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

2022-2026

JB Institute of Technology, Dehradun

Higher Secondary Education (XII)

-2021

National Infotech Secondary School

CERTIFICATIONS

- Advanced Java Programming
- Full Stack Training
